

7.3.1: Portray the performance of the Institution in one area distinctive to its priority and thrust within 1000 words

Response:

Giving Back to society and Environment

"This society should sincerely serve the cause of the education needs of the common man of this cosmopolitan city." Our campus believes in high standards of academic, professional, and societal performance.

We believe that college life is not all about academics, games, friends, and fun. It is also about learning to interact with other people, being aware of social, environmental and gender issues, and inequities in the society. We provide an opportunity to every student to contribute to make the society in which they live a better place and to grow as better individuals.

In line with its vision of working towards the socio-economic development of the country, TSRCC, Patan has taken utmost care to give back to the community. Several student committees are formed to carry out the duties towards society.

Along with other sports cultural and technical activities, the NSS unit plans activities like tree plantation and field visits to expose the students to the pressing issues in our society. Several activities are undertaken for the first-year students to expose them to the pressing environmental issues that ail us. They are taken on field visits to related industries and encouraged to participate in competitions dealing with environmental issues.

As a special thrust, societal development is also instilled on a large scale into the students through the active NSS unit which undertakes various services to inculcate social values. Throughout the year, the NSS unit undertakes a plethora of events ranging from cleanliness drives, tree plantation drives, voters' awareness programs, natural disaster training, donation drives, waste management drives, gender equity, field visits and many more. The NSS unit has also been a part of the plastic recycling drive.

The institute has been following a reduced paper drive since the last five years. On 13th and 14th January of every year has been celebrated as Karuna Abhiyan by NSS unit of our college. It is possible by the remarkable presence of the volunteers of NSS units. The purpose of the move was to give primary treatment to the injured birds and to bring awareness among people to take care of the birds during kite flying. It is just a motivating force of state Government resolution to save every bird from this mishap. This move also promote collection of wasted thread and NOT to use plastic string for kite flying.
